All the work developed by the team of teachers, their reception, their organization...

The teachers were very dedicated and the students were very enthusiastic. They had prepared wonderful stage shows and presentations on the project subjects. School team and the students were extremely hospitable which allowed us to establish strong boundaries and friendships. These boundaries will enable us work on further projects.

12. What improvements/changes would you add to the next TPM in "Back to School Life" project?

5 responses

I think that maintaining the level achieved in Romania is going to be difficult. You can not do more in the short time we have been in Romania.

No changes

In my opinion all activities were well planned and the objectives of the meeting were achieved so it is difficult to say about changes for the next TPM.

I think everything is ok.

Maybe a bit more time to discuss the project ideas
